INTRODUCTION TO THE NCU SUPPLEMENT TO THE 2000 ISDA DEFINITIONS

The NCU Supplement to the 2000 ISDA Definitions (the "NCU Supplement") is intended to supplement the 2000 ISDA Definitions, which in turn are intended for use in confirmations of individual transactions ("Confirmations") governed by agreements such as the [1992 ISDA Master Agreements](#) (the "[ISDA Master Agreements](#)") published by the International Swaps and Derivatives Association, Inc. ("ISDA"). Copies of the ISDA Master Agreements are available from the executive offices of ISDA.

When introduced on January 1, 1999, the euro replaced the existing currencies of those member states of the European Union that adopted it. However, under the terms of Council Regulation (EC) No 974/98, the former currencies of those member states were preserved as distinct units of the euro ("national currency units") and, for the duration of a transitional period scheduled to end on December 31, 2001, parties are free to enter into contracts denominated in national currency units.

With this in mind, ISDA has published the NCU Supplement and made it available on its website (www.isda.org) in order to assist parties that wish to document transactions involving national currency units. The NCU Supplement contains definitions of the various national currency units, together with certain other provisions, including business day definitions, that may be relevant to transactions involving national currency units. **The NCU Supplement does not contain definitions for any national currency unit floating rate options. Parties that wish to specify a national currency unit floating rate option (to the extent that such floating rate options are still being published) may wish to define that floating rate option in their Confirmation or specify a floating rate option by reference to the [1998 Supplement to the 1991 ISDA Definitions](#) (e.g., "DEM-LIBOR-BBA, as defined in the [1998 Supplement to the 1991 ISDA Definitions](#)"). Parties will also need to specify the appropriate day count fraction for the floating rate option specified. In addition, parties documenting a swap transaction involving a national currency unit to which optional or mandatory early termination is applicable should consider including a provision that varies the presumed cash settlement valuation date, if appropriate.**

Where parties incorporate the [2000 ISDA Definitions](#) into a document (including in electronic form) that evidences a transaction involving a national currency unit or that otherwise contains words or phrases defined in the NCU Supplement, the definitions and provisions in the NCU Supplement will be deemed to be incorporated into that document. The NCU Supplement may also be incorporated into a document (including in electronic form) by wording in the document indicating that, or the extent to which, the document is subject to the [2000 ISDA Definitions](#) (as supplemented by the NCU Supplement to the 2000 ISDA Definitions).

NCU SUPPLEMENT TO THE 2000 ISDA DEFINITIONS

The following definitions and provisions, where incorporated into a document (including in electronic form), supplement the [2000 ISDA Definitions](#) published by the International Swaps and Derivatives Association, Inc. (the "[2000 Definitions](#)"). Where parties incorporate the 2000 Definitions into a document (including in electronic form) that evidences a transaction involving a National Currency Unit (as defined in Section 1.1 below) or that otherwise contains words or phrases defined in the NCU Supplement, the following definitions and provisions will be deemed to be incorporated into that document. The NCU Supplement may also be incorporated into a document (including in electronic form) by wording in the document indicating that, or the extent to which, the document is subject to the [2000 ISDA Definitions](#) (as supplemented by the NCU Supplement to the 2000 ISDA Definitions). All definitions and provisions so incorporated in a document will be applicable to that document unless otherwise provided in that document, and all terms defined in this NCU Supplement and used in any definition or provision that is incorporated by reference in a document will have the respective meanings set forth in this NCU Supplement unless otherwise provided in that document. Any term used in a document will, when combined with the name of a party, have meaning in respect of the named party only.

ARTICLE 1

CERTAIN GENERAL DEFINITIONS

Section 1.1. National Currency Unit. "National Currency Unit" means any of the units of the former currencies of member states of the European Union that have adopted the euro in accordance with the EC Treaty and that are identified in [Section 1.3 \(National Currency Units\)](#). For purposes of the 2000 Definitions, each National Currency Unit will be deemed to be a currency.

Section 1.2. Business Day. For purposes of [Section 1.4 \(Business Day\)](#) of the 2000 Definitions, where the payment obligation that is payable on or calculated by reference to a date is denominated in a National Currency Unit, the principal financial center(s) will be the financial center(s) indicated for each of the following National Currency Units:

<u>National Currency Unit</u>	<u>Financial Center(s)</u>
Austrian Schilling	Vienna
Belgian Franc	Brussels
Deutsche Mark	Frankfurt
Dutch Guilder	Amsterdam
Finnish Markka	Helsinki
